INTRODUCTION:

WELL Company LTD was founded in 2009 by Mr. Eric RUGWIZANGOGA. In 2001 up to 2007 Eric has also worked at Banque de Commerce de Development et de L'industrie (BCDI) as a Security Officer. From 2007 up to 2011 Eric was the Security Coordinator at ECOBANK Rwanda.

Initially, the company offered maintenance and technology system services and non-specialized wholesale trade. In 2011, the company started to provide security training for private security officers, and started marketing security products in the market. The name of the company changed and became WELL INTERNATIONAL LIMITED.

MISSION:

To provide efficient Security training; Products and Security Technology within Rwanda, Africa and rest of the world. We will continue to refine our quality, expand our capabilities, increase our efficiency and elevate the superior level of customer service we provide.

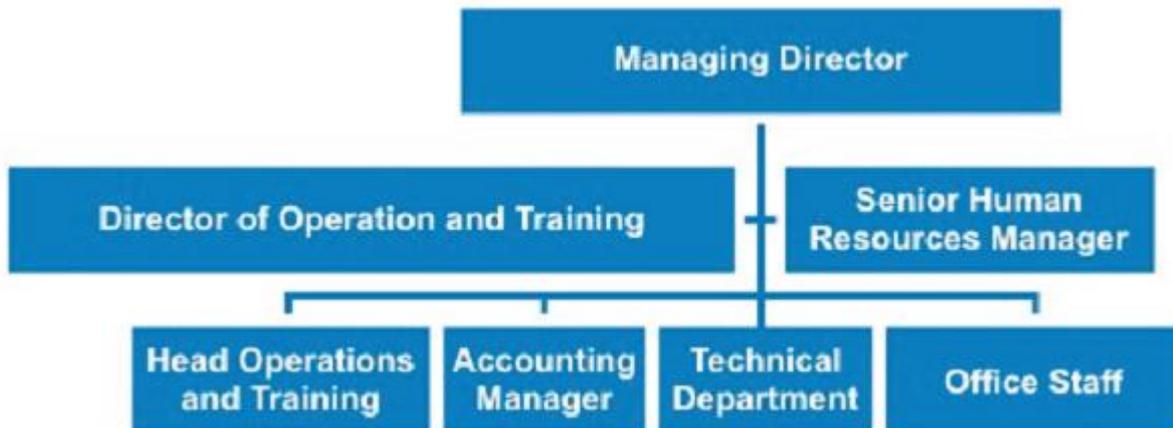

VISION:

To be Rwanda's leading security solutions provider, recognized for innovation, reliability, and excellence. We envision a future where every business and individual feels secure, protected by our advanced solutions and professional expertise.

P.O. Box 30509,
Kampala.

Dear Sir,

**RE: ACCEPTANCE LETTER - IMPLEMENTATION OF AN AUTOMATIC
FIRE DETECTION/FIGHTING SYSTEM AT THE TWO SERVER ROOMS**

This is to confirm that you have *successfully completed the project* whose objective was to supply, deliver, install and commission an Automatic Fire Detection/Fighting System at the two CAA server rooms, at Entebbe International Airport.

The associated contract was signed on 30th Oct 2009 between CAA and *Booth Fire Services Ltd.* The purpose of this project was to provide a system which would ensure prompt detection of a fire outbreak in the two (2) CAA server rooms and subsequent extinguishing of the fire(s).

The system was commissioned on 9th December 2009 in the presence of CAA personnel from the following departments: Operations-Fire/Rescue section, Administration and Information Technology. You sensitized these personnel on the operation of the system.

In your completion letter, you confirmed existence of a warranty running for 12 months from commission date, as per the manufacture. Further, the system is subject to a semi annual service and maintenance

Yours truly,

'3 IN 1' Cylinder (Changeable Combination)

The '3 IN 1' cylinder has been designed by Mul-T-Lock to allow users to easily change their key combinations.

It's a simple and speedy process the user inserts and operates the next key in a sequence of three keys and the introduction of each new key invalidates the previous key combination.

The product is packaged with three key types, colour-coded and clearly marked in a sequence, to guide the customer in the correct usage. First, they use the green set of keys. Then, when they need to change the combination, they start using the yellow key (after which the green key will automatically be cancelled). And if they need to change the combination again, they use the red key (after which both the yellow and green keys will automatically be cancelled).

When all three combinations have been used, the cylinder may be re-keyed by a Mul-T-Lock authorised locksmith.

The '3 IN 1' cylinder can be ordered with three separate duplicating cards for green, yellow and red keys.
